

Privacy Policy

Last Updated: November 20, 2025

HealthBridge ("we," "our," or "us") is dedicated to protecting the privacy of all visitors, users, and donors ("you") who use our online fundraising platform (the "Service"). This Privacy Policy explains how we collect, use, disclose, and safeguard your information when you visit our website, including the services provided to support University of Moratuwa students and their families.

1. Information We Collect

We collect various types of information from and about users of our Service.

A. Personal Data

This is information that directly identifies you. We collect this data when you interact with the Service, such as when you donate, contact us, or register as an administrator.

- **Donor Information (Simulated):** Name, email address, phone number, and donation amount. (Note: **Actual payment information (card numbers) is not stored by us** but is handled securely by a payment processor like Stripe or PayHere.)
- **Administrative Information:** Username, password (stored in a hashed format), and role (system_admin or admin).
- **Contact Information:** Any details you provide when sending inquiries via email or phone.

B. Usage Data (Non-Personal)

This information is collected automatically as you navigate the site.

- **Log Data:** IP address, browser type, pages viewed, time spent on those pages, and other statistics.
- **Device Information:** Type of device used (e.g., desktop, mobile), operating system, and unique device identifiers.
- **Case Interaction:** Data related to which active cases you view, filter selections (e.g., viewing "Urgent Only"), and search terms used.

2. How We Use Your Information

We use the information collected for several purposes:

- **Fundraising Operations:** To securely process donations and accurately update the progress bar (raised amount) associated with a specific student case in our MySQL database.
- **Service Functionality:** To provide, maintain, and improve the Service, including the performance of the Active Cases page and Admin Dashboard.

- **Administrative Access and Security:** To verify your identity and grant access based on your user role (system_admin or admin), and to protect against unauthorized access and fraud.
- **Communication:** To respond to your comments, questions, and requests, and to send administrative emails (e.g., donation receipts).
- **Analytics:** To monitor and analyze usage and trends to improve your experience and the effectiveness of our fundraising efforts.

3. Data Storage and Security

A. Data Location

- **Database:** We utilize a secure remote MySQL database (hosted on a cloud platform) to store all patient case data, admin user data, and donation tracking records.
- **Sensitive Data:** While we store donor names and emails, we rely on third-party payment processors (like PayHere) to handle, transmit, and store all sensitive financial information (credit card numbers).

B. Security Measures

We implement a variety of security measures to maintain the safety of your personal information:

- **Data Minimization:** We only collect the minimum amount of personal data necessary for our operations (e.g., patient details are limited to what is needed for verification and public appeal).
- **Access Control:** Access to the Admin Dashboard and case management is restricted via password authentication and role-based access control (system_admin has restricted privileges compared to admin).
- **Secure Transmission:** All data exchanged between your browser and our servers is encrypted using Secure Socket Layer (SSL) technology.

4. Disclosure of Your Information

We may disclose your information in the following situations:

- **Service Providers:** We may share data with third parties who perform services for us (e.g., web hosting, database maintenance, email delivery). These service providers are obligated to protect your data.
- **Legal Requirements:** If required to do so by law or in response to valid requests by public authorities (e.g., a court order or government agency).
- **Student Case Visibility:** Information regarding patient names, surgery types, funding goals, and location is displayed publicly on the Active Cases page as part of our fundraising mission.

5. Your Choices and Rights

You have certain rights regarding the information we hold about you:

- **Access and Update:** If you are an administrator, you can view and update case details via the Admin Dashboard.
- **Opt-Out:** You may opt-out of receiving non-essential communications (like marketing emails) from us.

6. Contact Us

If you have questions or comments about this Privacy Policy, please contact us at:
